

Internship

For our fantastic team we are still looking for reinforcement for the period September to February or March to August.

Are you open and communicative?

Perhaps you have already gained some work experience?

Are you willing to learn new programmes?

Do you like to work independently?

And are you looking for a cool office?

Then send us your application!

Please send us your CV, a portfolio with the highlights of your work so far and an overview of the tools and programmes you can use.

As an intern we will offer you an insight into the diverse processes of an (interior) architectural office and an exciting job in an international environment. Not to mention the friendly colleagues who like to have lunch together (or even party), and the best coffee at Checkpoint Charlie!

Very important: We are exclusively looking for applicants who would like to do a compulsory internship with us as part of their studies.

We are looking forward to receiving your application by e-mail with the subject "Pflichtpraktikum" to: jobs@kinzo-berlin.de

About Kinzo:

We are an architecture office in the heart of Berlin. Since 2005 we have been working for international companies on the cutting edge of interior architecture and design within the broad spectrum of living and working environments. We re-think and re-create these spaces and the processes behind them, proving that there is always an ingenious solution waiting to be discovered.
