

Internship

For our growing team in Munich, we are looking for reinforcement for the period of September to February or from March to August. We are exclusively looking for applicants who would like to join us as part of a compulsory internship for their studies.

Are you outgoing and communicative?

Perhaps you have already gained some work experience?

Are you willing to learn new programmes?

Do you like to work independently?

And are you looking for a cool office?

Then send us your application!

Please send us your CV, a portfolio highlighting your work so far, and an overview of the tools and programmes you can use. Proficiency in ArchiCAD and/or Vectorworks is required.

As an intern we will offer you an insight into the diverse processes of an (interior) architecture company and shared participation in the development of our young office.

We are looking forward to receiving your application by e-mail with the subject "Pflichtpraktikum" to: jobs@kinzo-berlin.de
Contact person is Susanne Welk.

About Kinzo:

Founded in 2005 in Berlin, our architecture office has been represented in Munich by Angelika and her team since the beginning of 2020. We have been working for international companies on the cutting edge of interior architecture and design within the broad spectrum of living and working environments. We re-think and re-create these spaces and the processes behind them, proving that there is always an ingenious solution waiting to be discovered.
